

Airesun Bitumen & Tar Remover

Biodegradable Speciality Bitumen & Tar Remover

Description:

Efficient, non-toxic, 100% biodegradable, bitumen and tar remover, for use in cleaning petroleum by-products, including asphalt and roofing tar, from skin, all metal surfaces, clothing, plastics, ceramic, and other surfaces.

Formulated from seed oils to provide users with a petroleum-free and solvent-free product with superior efficiencies when compared to other similar products in the marketplace.

This product is listed by the [NSF](#) as acceptable for use as a soluble oil (H3).

Instructions for use:

Apply directly as an atomized spray or liquid. Apply, rub into material to be removed, wipe off with clean cloth.

This product may not be recommended for use with certain rubber compounds, polypropylene, polyvinyl, Tyron, Plexiglas and similar materials. For these applications, rinse with warm soapy water after use. Best to try on a small hidden area before using.

Applications:

Heavy machinery repair and clean-up, removing construction adhesives, cleaning residue from skin, clothing and other surfaces. Meets standards for use in food processing facilities.

Airesun Bitumen & Tar Remover has the following characteristics:

- Easy to use, biodegradable, free of sulfur and aromatics and is 100% non-toxic.
- Requires no special application or handling practices.
- Contains no petroleum or CFC's and is ozone-friendly and safer to handle.
- Non-irritating to skin, hypoallergenic.
- 100% Biodegradability results in no damage to the environment from accidental release into soil or water.
- Flash point is +130°C and is not restricted for transport or storage.
- Addresses environmental laws requiring companies to eliminate the use of toxic cleaners from their manufacturing processes and operations.
- Safest product on the market for workers to use, no special equipment or coverings required.
- Reduces the cost of safely disposing of the product after use.
