

Airesun Carbon Black Remover

Biodegradable Speciality Carbon Black Remover

Description:

Airesun Carbon Black Remover is an efficient, non-toxic, 100% biodegradable carbon black cleaner for industrial use in cleaning and removing carbon black and carbon black compounds. It contains no caustic compounds or VOC's (volatile organic compounds), requires no special handling or storage and is non-toxic and 100% safe for the environment. This product is listed by the [NSF](#) as acceptable for use as a soluble oil (H3).

Instructions for use:

For typical industrial clean-up, apply directly then blend the carbon black cleaner into the dry or compound carbon black until fully saturated. Add as necessary, then wipe clean.

Unwanted cleaner residue may be washed off with soap and water.

Applications:

For use for carbon black clean-up, or carbon black compound clean-up.

Airesun Carbon Black Remover has the following characteristics:

- Spray on – wipe off.
- Requires no dedicated application apparatus.
- For 'open' applications, an atomizer or fog spray can be used to saturate the target material with our nano-compound, suppressing particle plume.
- Easy to use and remove from substrate, rollers, chain linkages, and mechanized transport systems.
