

Airesun PFPE Grease Remover

Biodegradable Speciality PFPE Grease Remover

Description:

Airesun PFPE Grease Remover immediately penetrates to the substrate and begins lifting and separating the most baked on applications in a fraction of the time of traditional products by quickly eliminating surface tension while destabilizing the constituents of the grease resulting in a clean surface. It allows for easy elimination of unwanted residue allowing for new grease applications to be applied with 100% surface integrity. Custom applications for unique customer requirements are also available. This product is listed by the [NSF](#) as acceptable for use as a soluble oil (H3).

Instructions for use:

Airesun PFPE Grease Remover can be applied via hand sprayer or any other usual application apparatus. Allow the product to move through the grease to the substrate material and start to wipe clean within seconds.

Applications:

Removes all grades of fluorinated greases and lubricants.

Airesun PFPE Grease Remover has the following characteristics:

- Works safely, efficiently and quickly, while requiring no special handling or storage.
- Flash point +130C.
- Will not affect substrate material.
- No CFC's or VOC's or ozone-depleting substances.
- Adapts to various application methods.
- Safe for use in ultrasonic cleaners.
- Addresses the ever-increasing environmental laws requiring companies to eliminate harsh, toxic cleaners from their present kitchen degreasing.
- Reduces the cost of safely disposing of the product after use.
- Promotes worker safety.
